to avail themselves of this the greatest boon ever laid at the altar of suffering humanity.

Middle-Aged Men.

There are many at the ages of thirty to sixty years who are troubled with too fre-quent evacuations of the bladder, often me-

companied by a slight smarting or burning sensation, and a wrakening of the system in a manuer the patient cannot account for. On examining the urinary deposits a ropy rediment will often be found, and some

times small particles of altimen will a pear, or the color will be of a thin, milkle

pear, or the color will be of a thin, milklah hue, again changing to a clack and torpid appearance. There are many men who die of this difficulty, ignorant of the canse, which is the second stage of sominal weakness. Dr. S. will guarantee a perfect cure in all such classes, and a healthy restoration of the geneto-urinary organ.
